Adam -

Further to our conversation yesterday, I confirm that I am prepared to give a 40 minute (plus 20 minutes Q&A) “TED talk” style keynote address in Milwaukee next Tuesday, July 16, 2024.

**Talk title:** “TED Talk: Donald J. Trump, America’s First Crypto President.”

**Speaker:** Hon. J. Christopher Giancarlo, former Chairman, U.S. Commodity Futures Trading Commission

**Talk synopsis:**

*The 21st Century global economy will change everything we know about money. The paper bills in global circulation will be replaced by a kaleidoscope of different cryptocurrencies, stablecoins, digital bank money and central bank digital currencies. Without U.S. leadership, these changes could be detrimental to the US Dollar.*

***J. Christopher Giancarlo**, former Chairman of the U.S. Commodity Futures Trading Commission known as “CryptoDad”, will make the case that the United States asserted global leadership and responsibility for this innovation during the first Trump Administration. He will explain how this leadership has been miserably squandered by Joe Biden but will be quickly resumed and expanded in a second Trump Presidency.*

**Short bio:** Attached

**Head shot:** Attached
